Eric,

Thanks for the coffee table book about Denver. It'll sit on the coffee table in our waiting area for years. I'm sure it will be used.

Eric Gold comes highly recommended by the people of SimpleSignal and myself.

His diligence and commitment to his clients is demonstrated by our story. More than a year ago we put Eric to work looking for a new space for our growing company. After several weeks of research and many hours of looking at different spaces we never could decide on a suitable one so we extended our existing lease for one year. 8 months later Eric approached us again and we relaunched the search. This time we found a beautiful space that fits our current needs perfectly and allows for future expansion over the 3 years.

I will surely engage Eric the next time our company moves.

With appreciation,
Dave Gilbert
